FUNCTIONS & FEATURES

AI-POWER DOCUMENT CAPTURE

Antelope Genie transforms document processing with AI-powered automation, effortlessly categorizing files into cloud folders while extracting key data from invoices, contracts, receipts, and multilingual / handwritten documents with 99.8% accuracy. This intelligent solution eliminates manual data entry, accelerates workflows, ensures compliance, and delivers instant access to critical business documents - all while boosting productivity and reducing operational costs.

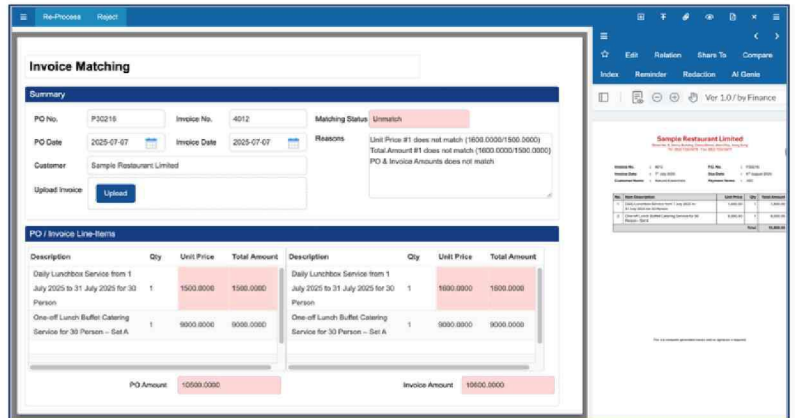

STREAMLINED EXPENSE CLAIM WORKFLOW

The Expenses Claim workflow enables users to effortlessly upload receipts through an e-form, with Antelope Genie AI technology automatically extracting receipt data—eliminating manual entry. This streamlined process not only saves time but also reduces errors, allowing users to quickly submit claims for approval. Enhanced efficiency and accuracy lead to faster reimbursements and improved financial management.

4-WAY MATCH AI ASSISTANT

Antelope Genie leverages advanced AI and LLM technology to intelligently compare documents, flagging duplicate invoices and illogical data patterns in real-time. This proactive approach prevents financial errors, ensures compliance, and optimizes audit readiness—delivering smarter, error-proof document analysis for your finance team.

PROACTIVE FRAUD DETECTION

Our system instantly flags discrepancies and ensures perfect alignment—processing approvals autonomously while prompting human review only for unmatched exceptions. Achieve 100% accuracy with near-zero touch, streamlining procure-to-pay from start to finish.

KNOWLEDGE BASED ANALYSIS

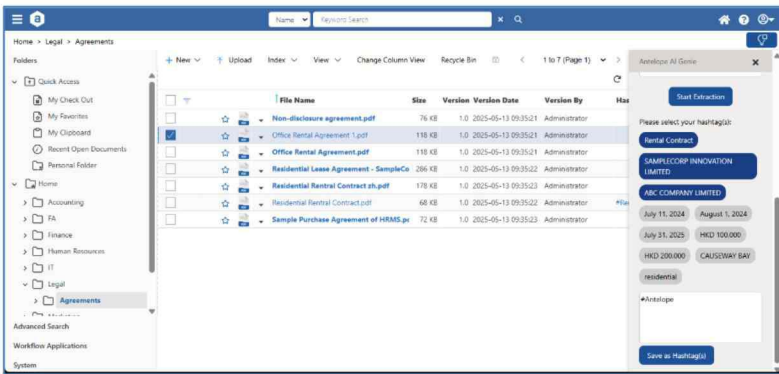

Antelope Genie’s AI chatbots deliver high-reasoning, low-hallucination responses by leveraging your stored historical and real-time documents. Our system grounds every answer in your actual data—from contracts to transaction records—ensuring accurate, context-aware support. The more you upload, the smarter it gets, turning your repository into a precision knowledge base for finance teams.

REMIND YOU HASHTAG YOU

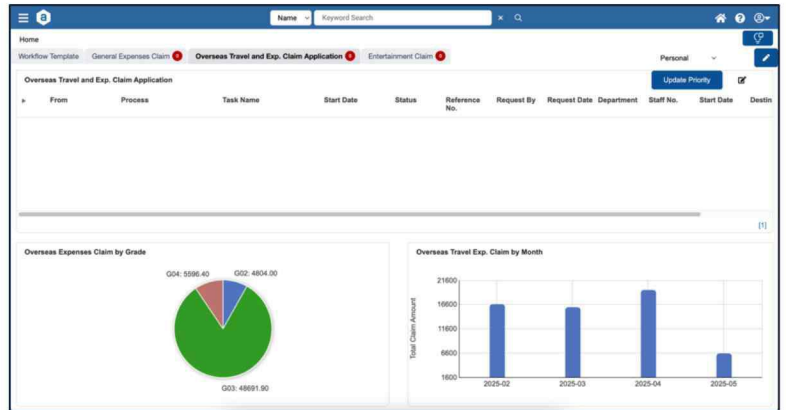

AI Reminder automatically identifies critical dates within documents (e.g., deadlines, appointments) and sends targeted alerts to relevant recipients, ensuring timely follow-ups and reducing oversight risks.

AI Hashtag simplifies document organization by analyzing keywords and auto-tagging files with relevant hashtags. This allows users to instantly retrieve related documents across the entire repository with a single click, eliminating manual searches.

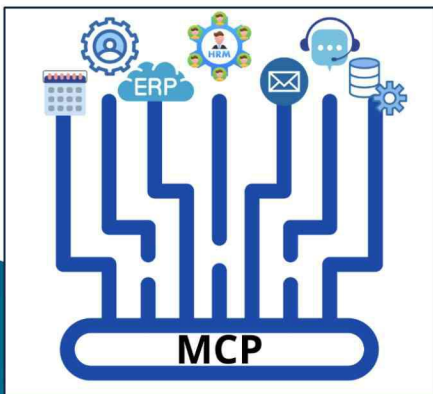

MANAGEMENT DASHBOARD

Simply input client needs in natural language, and Antelope Genie 2 instantly generates responses by analyzing your database. It displays insights through clear charts showing supplier comparisons, competitive advantages, and client-focused recommendations. The system can also produce detailed proposal reports on demand, streamlining your top management from initial query to finalized solution.

MCP INTEGRATION READINESS

The MCP server operates by integrating various applications and processes through a unified interface, enabling real-time data exchange and automation. Antelope Genie utilizes MCP technology to streamline workflows and enhance operational efficiency. This robust platform reduces downtime and improves data accessibility. With scalable architecture, organizations can easily adapt to changing needs, leading to better collaboration, faster decision-making, and ultimately, a more agile business environment.

BOARDER OPTIONS SUPERIOR FLEXIBILITY
